

NeoBar[®]

Gentle security for ET tubes

Protect baby's palate and reduce chance of accidental extubation

NeoBar offers the ideal balance between security and comfort for securing endotracheal tubes for babies. The eight color-coded sizes ensure optimised fit and gentle tabs help to reduce need for potentially harmful tape on delicate skin. Neobar is carefully designed to protect the baby's palate, enable good oral care, and reduce the chance of accidental extubation.

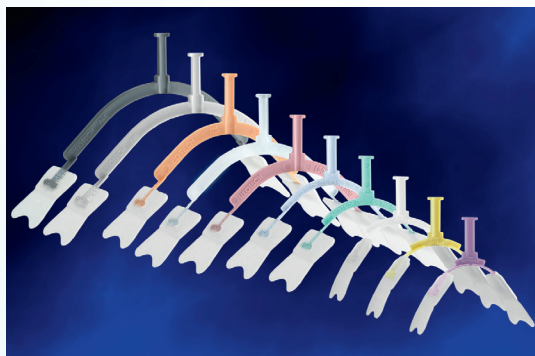

ET tube holder

- NeoBond[®] hydrocolloid tabs care for delicate skin
- Eliminates need for tape near nose or mouth
- Free from latex, plasticiser & DEHP
- Individually packaged
- 8 colour coded sizes
- Easily cut for emergency removal
